Description

For sale: Building plot in Kiewitstraat 32, located in 3070 Kortenberg.

This building plot is designated for the construction of a semi-detached building as a single-family house. The location is against an existing blind façade. The ground floor of the house should have a depth of 15 metres, while the first floor should have a depth of 12 metres and the second floor should have a pitched roof. The roof connects to the neighbouring house.

According to building regulations, two residential floors are allowed, but it is also possible to create a third residential floor within the gabarit of the pitched roof.

Please note that it is not allowed to build a basement on this building plot. It is also possible to build a garden house or garden shed. This structure may have a maximum height of 3 metres and a maximum surface area of 25m². It is important that the garden house or garden shed is harmonious with the main house.
